

Excavation Info

Excavations are a small part of archaeology and we understand it can be quite difficult to get involved. Therefore, we have provided some contacts and websites to help you try and get involved.

Contacts

Castleton Historical Society Secretary:

If you want to complete the excavation option for the badge but can't find a project to take part in, we are happy for you to improvise and take part in any other part of practical archaeology:

- Environmental Sampling
- Non-invasive Surveying
- Geophysics
- Archaeology Illustrations
- Museum Work
- Finds Processing

This list is just a small selection of activities, and there are many other options, contact the commercial archaeologist or volunteer for more options of what they may have available.
